MEHEDI

Junior Frontend Developer

GitHub ‖ **Linkedin**

Tangail ,Dhaka,Bangladesh | +8801834393787 | meheduvau@gmail.com

Passionate Frontend Developer with strong expertise in React.js and Tailwind CSS, skilled at building responsive, user-friendly web applications. Proficient in modern JavaScript (ES6+), Firebase Authentication, and API integration. Currently expanding skills in backend development with Node.js and Express.js to become a full-stack developer. Committed to writing clean, efficient code and delivering high-quality digital experiences.

SKILLS

- Strong Expertise: **React.js (Component-Based Development, React Router), Tailwind CSS (Responsive UI, Utility-First CSS)**
- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), Fetch API
- Authentication & Hosting: Firebase Authentication, Firebase Hosting, Netlify
- Version Control: Git, GitHub
- Other: Responsive Web Design, Clean Code Practices

PROJECT

A Travelling site with beautiful UI   Live - Github Repo

- User Registration, Login, and Password Reset functionality using Firebase Authentication.
- Google Sign-In integration for simplified authentication.
- Fully responsive UI built with React, Tailwind CSS and DaisyUI.
- Seamless page navigation using React Router DOM with protected routes.
- Subtle animated logo in the navigation bar for enhanced branding.
- Modular and reusable component-based architecture in React.
- Deployed and hosted with Firebase Hosting for live access.

A news project showcasing API skills   Live - Github Repo

- Fetched news data dynamically from an external API using React.js and displayed it with a responsive UI built with Tailwind CSS.
- Implemented protected routes with React Router DOM and Firebase Authentication, restricting full news details only to logged-in users.

EDUCATION

Diploma in Computer Science and technology (CST)
Tangail Polytechnic Institute
 Session : 21-22
